

Unforgettable experiences

There is a lot of action at Isokenkäisten Klubi all year around. In the winter, in the middle of the snowy forest and silent nature, you can forget the rush and let your mind relax, with snowmobiling, cross-country skiing or snowshoeing. At the Klubi`s own rally car race you can feel the real excitement as your pulse rises, when you know that soon you are sitting behind the steering wheel of a rally car. Winning is not so important, but the thrill and speed is certainly there.

In the summer you can experience the nature by canoeing or hiking. If you are looking for more speed on the trail, you can experience it on a quad bike safari. For more exciting experiences for the whole family you can join a tour where the King of forest itself, the bear, has the main role. Your guide will lead you to the hut where you are able to see the wild animals of the nature safely.

The beautiful colours of the autumn offer great possibilities for hunting and also mushroom and berry picking.

You can try your luck at fishing by catching fish from the shore or from the boat on the Lake Heikki or Lake Suininki. In the winter you can try to catch fish by fishing with the jig rod through a hole in the ice.

“Whip with the vasta!”

At the end of the day our Seven Star Smoke Sauna will relax you with its moist steam. In the winter you can fresh up with a dip through the hole in the ice, and during the summer in the clear water of the lake. The nature surrounding "Isokenkäisten klubi" is offering enough space for a wide variety of activities during summer and winter.

*A Journey of Tastes
Based on Genuine
Traditional Food Sources!*

Fine hospitality is belonging to our family tradition. The hostess of the house is proud to keep the dining table always full and well set.

We have learned from our parents that tasty food and good friends belong together, and hopefully this feeling is felt in the surroundings and atmosphere, when enjoying these local delicacies. We produce tasty dishes, using fresh Finnish and especially local products from Kuusamo. The idyllic atmosphere of Klubi, with the spirit of the eastern border and cosy glow from the fire place, will take you on an enjoyable journey of tastes which can not be compared.

At Isokenkäisten Klubi you can also arrange weddings, family parties, as well as special birthdays and Christmas parties. Our traditional Klubi buffet table is full of tasty dishes, of delicious mouth watering delights, which your friends will remember for many years ahead.

We also arrange a catering service. We can bring the delicacies for your party or your special occasion straight to your home, cottage door or other party places.

*Sometimes it is good to stop
and enjoy that special moment!*

The buildings in the area of the Klubi are designed and built in our own genuine north eastern style, by respecting the old traditions. The outlook of the buildings is ecologically friendly, and made by using old grey wood, which is recycled and also saves the nature. The accommodation buildings are situated by the side of Lake Heikki blending in with the natural wilderness. Inside the Klubi the feeling is cosy, and the fire place brings a warm atmosphere together with the friendly and individual service.
